Item 1 Welcome and Introductions

Item 2 Mothers Strong Update
The committee received an update from staff about the Mothers Strong coalition activities and emerging maternal mental health needs and opportunities.

Staff conducted a survey with coalition members to determine their priorities. The priorities were identified in ranking order as follows: Networking, Learn about Maternal Mental Health research and policy, Agency updates/share, Receive MMH training, Advocate for better services, Ways to bring more funding, Provide training to Community, Join a MS topic specific committee, Provide community training.

WIC requested maternal mental health training, First 5 staff have contracted with two therapist and have coordinated 4 trainings for WIC staff in the month of April.

Healthcare providers requested maternal mental health books to provide to their patients, First 5 have coordinated the purchase and distribution of book kits for therapists and healthcare providers.

The committee discussed the role of First 5 staff with the Mothers Strong coalition, and identified that the role is for staff to provide backbone support and help to coordinate efforts, and the coalition is empowered to be responsible for setting priorities, providing leadership and actively engaging.

Item 3 Mental Health Services Act (MHSA)
The committee received a report from staff about possible programs and initiatives that the Commission may want to consider applying for local MHSA funds to support. Based on Mothers Strong coalition feedback, there is strong support and need for a coordinated single point of entry for maternal mental health care coordination and navigation. The committee identified this as a possible opportunity to leverage and expand the Help Me Grow program, incorporating additional elements, and seeking funds in addition to Prop 10 to support. The committee stated that: HMG is a crucial program and there are individual stories of how children have been helped. Going forward, we want to see the program be successful.
Item 4  Commissioner Comments

- The committee discussed the announcement of pregnancy-related Medicaid expansion
  - MMHLA News flash flier link provides some information: Link to [News flash flier](#)
