This requirement may be satisfied by merely referring to the relevant portion of the written agenda for the meeting. • Once the closed session has been completed, the agency must reconvene in open session, where it may be required to report votes and actions taken in closed session. <p>The body may discuss an item which was not previously placed upon an agenda at a regular meeting, when the body determines that there is a need for immediate action which cannot reasonably wait for the next regularly scheduled meeting. (§ 54954.2(b)(2).) The determination that a need for immediate action exists must be made by two-thirds of the members present or, if two-thirds of the body is not present, by a unanimous vote of those remaining. The purpose is to establish an ethics policy for the Commission.</p> <p>The composition of First 5 commissions means that, from time to time, commission members may be from agencies that seek or receive First 5 funding. The goal of this policy is to promote public confidence and trust in the decision-making processes of the Commission. Such public confidence and trust is a function of a number of factors:</p> <ol style="list-style-type: none">1. Decision-makers' experience, knowledge and competence;2. Their commitment to putting the interests of children under five before any personal or organizational interests;3. Transparent and inclusive decision-making processes; and4. Accountability mechanisms that assure the public that worthy public purposes are being achieved as the result of the expenditure of public resources on Proposition 10 programs. <p>There are a number of state and federal laws that are designed to promote public trust and confidence in local agency decisions, including those made by the Commission. These laws create minimum standards for public agency decision-makers that are important to satisfy. A key goal of this policy is to set the requirements of the Children and Families Commission of Butte County higher than the requirements of the law.</p>
Policy:	<p>The Commission's Additional Practices to Protect Public Trust and Confidence</p> <p>The Commission believes that public trust and confidence in Commission decisions and actions is vital to the accomplishment of the Commission's mission. Staff Training. Commission executive staff must also participate in this training.

Documentation. The Commission will maintain certificates of compliance with ethics training requirements as public records available for inspection.

4. When Making Funding Decisions

Broad-based Public Input Sought. The Commission will use and document use of inclusive processes to seek broadly-based community input on strategic plan updates, including funding priorities, in addition to the public hearing required by law.

Publicity for Funding Opportunities. The Commission will widely publicize the opportunity to compete for contracts and grants (through website, mailings and other outreach mechanisms), allowing a reasonable timeframe for interested organizations to respond. To achieve this widespread publicity, the Commission will develop and maintain an up-to-date distribution list of potential partners (either for programs or help with getting the message out), that includes community leaders, service and advocacy organizations, community/neighborhood and ethnic media, local community foundations and other philanthropic organizations, and area clergy.

Anti-Nepotism Policies. If a decision-maker's family member (including parent, grandparent, child, sibling, relation by marriage or civil union, aunt, uncle or cousin) works for an organization being considered for funding, that decision-maker is prohibited from participating in or influencing the decision on whether that organization receives funding. "Influencing" includes not only voting on a matter, but discussing it with staff or other decision-makers.

5. At Each Meeting (When Making Decisions about Funding)

Alerting Decision-Makers to Potential Conflict Issues. The Commission will include "Announcement of Recusals" on every Commission agenda explaining the circumstances under which decision-makers need to step aside from the decision-making process.

Leave the Room Requirement. Anyone who is disqualified from participating in a decision because of a conflict of interest must leave the room when that agenda item is called. Should the Commission require clarifying information regarding a funding request, the recused Commissioner may return to the room to address specifics.

Public Notice and Comment Opportunities. The Commission will maximize the public's knowledge and opportunity to comment on proposed funding decisions by posting them 72 hours in advance, including any proposed decision and findings relating to not using a competitive process for awarding grants/contracts.

4. Contracting and Procurement

Purpose/ Background:

The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish a contracting process for the Commission.

First 5 Butte County provides a system of controls over all purchasing and contracting activities. This process shall provide for the efficient purchasing of First 5 Butte County supplies, equipment and services, and shall prevent unnecessary purchases of materials and supplies, and provide compliance with budgetary requirements.

The California Children and Families Act of 1998 (Proposition 10) authorized counties to implement a local early childhood development program consistent with the goals and objectives of the Act, establish a county commission, and create a local Children and Families Trust Fund. The Act also mandated that the Commission have the authority to perform certain autonomous functions, such as the ability to contract, independent from the county. The specifics of this relationship were further characterized in an [Advice Letter, dated October 27, 1999, from the Office of the Attorney General, State of California, to First 5 California.](#)

In accordance with the Act, the Board of Supervisors for the County of Butte established, through County Ordinance, the First 5 Butte County Children and Families Commission. The independent nature of the Commission mandates the necessity to establish a policy on the procurement of goods and services.

In accordance with Government Code section 54201 et seq., purchases of supplies and equipment shall be in accordance with the procedures specified in this policy.

In accordance with Public Contract Code section 3410 et seq., preference shall be given to United States grown produce and processed foods.

In accordance with Public Contract Code sections 22150 to 22154, preference shall be given to the purchase of recycled products, whenever they are available at the same or lesser total cost than non-recycled products. Additionally, vendors must certify the minimum percentage of post-consumer materials in the products and supplies offered or sold.

<p>Policy:</p>	<p>The Commission has sole authority to approve contracts as described in the Contracting Authority Policy and Procedures.</p> <p>Commission funding shall be assigned, committed and expended economically and expeditiously, under fair, open, and well documented procedures, and in accordance with best procurement practices.</p> <p>All grants and contracts must be consistent with the Commission’s Strategic Plan. They must support either the operation of the Commission or directly support the result areas outlined in the Strategic Plan.</p> <p>These practices shall allow the Commission to obtain the best value when procuring goods and services, while concurrently upholding the public trust in a direct and honest environment and maintaining an equitable balance of flexibility and impartiality.</p>
<p>Procedures:</p>	<p>The following procedures shall be followed in the selection of vendors for the Commission when the Commission has initiated the procurement of goods or services:</p> <ol style="list-style-type: none"> 1. All Contracts in amounts equaling or exceeding \$25,000 shall be presented to the Commission for approval. Contracts for amounts under \$25,000, and that fall within a Commission-approved budget line item, shall be reported to the Commission at its next meeting. Any individual representing First 5 Butte County shall refrain from oral or written commitments that may be construed as binding by any other party and may be personally liable for any costs of an agreement that is entered into without proper approval or is interpreted as a commitment by a third party. 2. Contracting and procurement processes shall be conducted in compliance with the Commission’s Conflict of Interest Policy and Procedures. No person shall make, participate in making, or use one’s position to influence an action or a decision relating to a procurement in which there is a personal interest. If there is a conflict of interest or the potential for the perception of such, the individual must immediately disclose this to an appropriate representative of the Commission. 3. If State or Federal law mandates the procurement of services in a certain manner, then the law will govern the acquisition. 4. Contracts governed by California Government Code section 4525, et seq. (contracts for professional services for architectural, landscape architectural, engineering, environmental, land surveying and construction project

management services) are subject to a formal selection, negotiations and approval process.

5. First 5 Butte County opens funding opportunities based on current needs, community and research based information as recommended by the Strategic Plan. Individuals, groups, government agencies, religious organizations, non-profits and for-profit organizations may apply for competitive grants and may submit separate proposals for separate programs.
6. An informal competitive bid process may be used for purchases under \$25,000. When reasonable, a minimum of three bids shall be obtained prior to selection. Written or documented oral quotations and statements of capacity must be obtained and presented to the Director and the Chair for approval prior to contracting for these goods or services. Selection of the vendor/grantee shall be made with consideration of the bid price and the capacity of the bidder to fulfill the scope of work.
7. The Commission shall utilize a competitive process, such as a Request for Proposals (RFP) or a Request for Qualifications (RFQ), to select vendors and contractors when seeking goods or services not currently provided through a current Commission contract with a total value equal to or above \$25,000.
8. The Director is authorized to execute the release of a competitive vendor selection process, unless specifically directed by the Commission or requested by a Commissioner to be placed on the Commission agenda for formal approval.
9. The Commission may choose to utilize non-competitive procurement processes such as Sole Source Procurement, Intent to Negotiate, Request for Information or Contract Renewal. The Commission will align with the County's guidance on Competitive Solicitation Exemptions. Non-competitive procurement processes shall be conducted as public processes, inclusive of community advisory groups and service providers potentially impacted by the goods or services sought by the Commission, as subject to applicable law and regulation.
10. The Commission may enter into agreement through a Memorandum of Understanding (MOU) or a formal contract, depending on the situation:
 - If the request is for direct payment or reimbursement without additional provision of services, and if the amount requested falls under \$25,000, the requestor may enter into an MOU and be asked to provide basic data about how the funds were used.
 - If the request includes the provision of services and funding of personnel, the requestor will enter into a contract with the Commission. It will be

	<p>required to adhere to a scope of work and provide periodic reporting about service provision and outcomes.</p> <p>11. Indirect costs are shared costs that benefit or support multiple services administered by the awardee, and cannot be readily identified with a specific project (e.g. legal, accounting, human resources, procurement, maintenance, technology, etc.).</p> <ul style="list-style-type: none"> • Indirect costs on contracts may not exceed 15% of an awardee’s total operating budget, and may be reduced or disallowed at the Commission’s discretion. Applicants should review the terms and conditions of the specific funding for which they’re requesting. • No single dollar of an awardee’s contract may be counted twice when calculating the total amount of indirect cost allowed, irrespective of subcontractor arrangements. • Grantees may not charge indirect expense on funds awarded through the Commission’s discretionary funds process, which supports programs, activities and professional development opportunities in amounts of up to \$5,000. <p>12. Contracts shall link the performance of vendors and contractors to the goals and objectives of the Strategic Plan.</p> <p>13. All funding is performance-based and requires agreed upon procedures for monitoring and evaluation.</p> <p>14. Commission staff shall follow the procedures outlined in Section 2.3 of the First 5 Association of California Financial Management Guide (the “Guide”). In the event of a conflict between these Procedures and the Guide, these Procedures shall control.</p>

6. Emergency Response and Recovery Fund

Purpose/ Background:	The Commission is committed to responding to emergencies and crises that impact the 0-5 population and the systems that support them. The purpose of the Emergency Response and Recovery Fund is to allow the Commission flexibility to consider and respond to unmet needs that arise during or after a federal, state, or locally declared disaster or emergency.
Policy:	The Commission may use the funds as Targeted Spending (i.e., Commission-initiated), or it may award the funds via the Emergency Fund Request process. Commission funds should be viewed as a last resort, and should not supplant any available public or private funds. If funds become available to reimburse for expenses, a reasonable effort should be made to return the Commission for Emergency Funds.
Procedures:	<p><u>Request Criteria</u></p> <p>Emergency Fund requests must directly address an identified need that, if unmet, will result in significant disruption to the health, mental health, growth, or development of children ages 0-5, or the functioning of their family.</p> <p>This includes but is not limited to:</p> <ul style="list-style-type: none">• Food, supplies, and shelter• Transportation• Healthcare• Mental health services• Access to quality childcare• Access to essential supportive family services that provide a safety net, promote opportunities for supportive nurturing relationships and prevent child maltreatment <p><u>Request Amounts</u></p> <p>For requests up to and including \$5,000, the Director may make the determination based solely on the letter of intent (and any discussions with the requestor) and may approve, modify or deny the request.</p> <p>For requests larger than \$5,000, the request will be forwarded to the Executive Committee as designated by the Commission, for approval.</p> <p>The Commission reserves the right to limit funding amounts and types of requests.</p> <p><u>Request Submission</u></p>

Requests will be accepted only from 501(c)(3), government, and private organizations.

Requests can be submitted anytime a qualifying disaster or emergency has occurred. In consultation with the Chair, staff will update the funding page on the Commission website to provide clear instructions to requestors about the availability of and the process for requesting Emergency Funds. Staff will conduct outreach to the community to ensure the availability of funding is broadcasted widely. Requests may be submitted via electronic or hard copy per the instructions. Requests will be reviewed on a first-come, first-served basis. The entity submitting the request must submit a detailed letter of intent that directly addresses the criteria listed above, and indicate the funding needed and the timeline for the requested support.

Request Review

The request will be reviewed by staff who will make every attempt to act upon the request within five business days of receipt. Staff may discuss the request with the requestor to determine if the request meets the emergency fund criteria.

1. If the request meets the criteria, the request will be forwarded to the appropriate approver for consideration.
2. If the request is determined not to meet the criteria, First 5 staff will provide the rationale to the requestor.
3. Requests that meet the criteria may not receive funding, in which case First 5 staff and/or the Commission will provide rationale to the requestor.

Request Approval

Approved requests will be formalized in one of two ways:

1. In order to enable the Commission to process payments as quickly as possible, if the request is for direct payment or reimbursement without additional provision of services (such as payments to childcare providers, food banks, property management) the requestor will enter into a Memorandum of Understanding with the Commission and will be asked to provide basic data about how the funds were used.
2. If the request is for or includes the provision of services and funding of personnel, the requestor will enter into a contract with the Commission. It will be required to adhere to a scope of work and provide periodic reporting about service provision and outcomes.

7. Supplantation

Purpose/ Background:	<p>The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish supplantation definitions for the Commission.</p> <p>This policy ensures that funds shall not be used to “supplant state or local General Fund money for any purpose”. Specific experimental projects or pilot programs will be excluded from this Supplantation Policy. Supplantation definitions include:</p> <ol style="list-style-type: none">1. Existing: A service that is established or operational at the time the Commission acts on the Request for Funding.2. State general funds: Any moneys received into the treasury of the state not required by law to be credited to another fund (Gov. Code section 16300)3. Local general funds: Any moneys received into the treasury of the local government and not specifically appropriated to any fund (Gov. Code section 29301).4. Level of Service: Quality and quantity of services5. Supplant: To take the place of6. Pilot: On a temporary and limited basis in order to test, evaluate or research the effectiveness of a program; develop untried techniques or gather data.
Policy:	<p>First 5 Butte County will ensure that funds received from Prop 10 shall be used only to supplement existing levels of service and not fund existing levels of service.</p> <p>Section 30131.4 of Proposition 10 supports the Commission’s ability to make grants to fund services that were previously provided and funded by a local public agency, but have been discontinued by budget constraints. Because these services were not in existence at the time that the Commission made funding determinations, they do not fall within a common sense definition of the word supplant. Given that California Law is silent on the question of when the expenditure of funds ceases to supplant and commences supplementing, it is the policy of the Commission that if there is any question regarding supplanting, it is incumbent upon the proposer to address the issue to the Commission’s satisfaction.</p>
Procedure:	<p>Prior to awarding grant funding, the following elements will be reviewed to ensure compliance with the Supplantation policy:</p> <p>Every prospective funding recipient must disclose whether the program has received funding from other sources (whether local or state government, private, or federal) within the past three years, and as to any public funding, identify the law or program under which funding was received.</p>

	<p>The Commission may require the applicant to provide any additional information regarding sources and uses of funds at any time during the application and/or contract period. Based upon all existing facts and circumstances, the Commission shall determine whether the proposal would violate this policy, prior to contract completion. For multi-year contracts or commitments, the Commission, reserves the right to re-examine its determination that its funds will not be used in violation of this policy.</p> <p>If, upon receipt of Proposition 10 funds, Contractor uses such funds to replace state or local general funds, Contractor shall demonstrate to the Commission’s satisfaction that such funds have increased the level of services provided to children birth through 5 years of age.</p>

8. Protest of RFP, RF or RFQ Denials

Purpose/ Background:	<p>The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish procedures governing the protest of RFP, RF or FRQ denials.</p> <p>The Commission conducts formal competitive processes designed to maximize collaboration and open participation by existing and new community-based organization or individuals. Given that there will be requests for funding which fall outside of the formal bid process, this policy is meant to address those requests for funding as well.</p> <p>The Commission’s role in handling protests is to reassure applicants that the published RFP/RFA/RFQ process was fair, clear and applied consistently.</p>
Policy:	<p>The Commission will allow for the protest of the denial of Prop 10 funding. The Protest of RFP, RFA and RFQ denials must be filed within five days of the receipt of denial, and must follow the procedures below. No funding distribution, for any grant or contract, will take place until all protests have been resolved.</p>
Procedure:	<p>The Commission will notify unsuccessful applicants in writing that their funding requests have been denied. As part of this notification, the Commission will explain its grievance procedure and provide a Request for Protest of Grant Denial form, the applicant’s score and the panel recommendation.</p> <p>An applicant whose funding request has been denied, who does not wish to protest, may inquire to the Commission for feedback outside of the formal protest process, and will receive a debrief after awardees contracts are executed. In agreeing to such a debrief, the applicant will waive the right to protest the denial.</p> <p>An applicant whose funding request has been denied, and who wishes to file a protest, must submit the Request for Protest of Grant Denial form within five days of receiving the denial notification. Legitimate reasons for protesting the denial are limited to procurement procedures.</p> <p>In submitting the form, the applicant may request a debrief by Commission staff, wherein the applicant will be provided with evidence of adherence to the procurement rules set forth in the applicable RFP. If, after the debrief, the applicant still feels aggrieved, they may request to have their grievance received at the next regular meeting of the Commission.</p>

	The full Commission will act as the final arbitrator on all protest actions. Broader comments about the Commission, the funding process, or any other Commission related business will not be addressed during the hearing. In compliance with the Brown Act, all hearings will be open to the public.

9. Grant Lapse

Purpose/ Background:	The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish procedures for the Commission regarding grant lapses.
Policy:	A grant award will automatically lapse if the grantee has not completed specified pre-contractual contingencies within 90 (ninety) days; absent special permission from the Commission chair.
Procedure:	Grantees that are selected by the Commission to receive a grant through the competitive grant process must meet the required contingencies, enter into a contract and commence performance within 90 (ninety) days of full execution of the contract, or the grant award shall automatically become null and void. An additional 45 (forty-five) day extension may be granted, at the discretion of the First 5 Director, for good cause shown. Applicants who are denied an extension may appeal in writing to the Chair of the Commission, who will consult with the Director and respond within 10 (ten) days of receipt of the appeal. In no case will a delay in commencement of performance extend the contract beyond the time contemplated in the proposal.

IV. Policies for Grantees

1. Confidentiality

**Purpose/
Background:**

Proposition 10 mandates County Commissions craft a strategic plan that mobilizes the community's resources to ensure that all children birth to age five enter school in good health ready and able to learn. Each County Commission must assure that Prop 10 funds are well spent and managed and that all program planning is directly tied to measurable outcomes or results. Butte County Children and Families Commission, in developing an accountability framework to collect data, measure the outcomes and impact of services, and report the results, recognizes the Commission and Grantee responsibility in maintaining the privacy of personal information.

In order to track and report outcomes for children and families receiving Prop 10 funded-services, counties may be required to collect individually identifiable information that will minimize duplication and track all common outcome data collected across a system. In certain well-defined circumstances, the Commission, and its grantees, may be required to collect personally identifiable financial, demographic health, social service, school, and other sensitive information and will need to have identifiers and strategies in place that link information about families across agencies for the purpose of evaluation and service delivery without compromising the family's confidentiality.

As important as it is for the Commission to be accountable and to collect outcomes-related data, the Commission must also ensure that essential data collected will not invade privacy, breach confidentiality, or cause harm.

The purpose of this policy is to inform Commission employees, grantees, and all employers and sub-contractors of the grantees, that all information related to clients is to remain confidential.

Policy:

It is the policy of the Commission to ensure that the information received in the Commission office remains confidential and in compliance with all Federal, State and local laws, rules and regulations including, without limitation, any nondiscrimination laws.

In like manner, grantees shall comply with confidentiality laws protecting the rights of the Commission and any and all clients as outlined in the Terms and Conditions of each contract.

To that end, the following Confidentiality language shall be made a part of every Commission contract under its Terms and Conditions:

	<p><u>Confidentiality and Ownership.</u> <i>The Commission retains the exclusive right of ownership to the work, products, inventions and confidential information produced for the Commission by the Contractor, and the Contractor shall not disclose any information, whether developed by the Contractor or given to the Contractor by the Commission. The parties agree that the Commission will own the work, products, inventions or information produced by the Contractor pursuant to this contract.</i></p>

2. Equity and Diversity

Purpose/ Background:

The Butte County Children and Families Commission recognizes that there are significant gaps and disparities in the provision of services for children and their families and as observed in educational, health and other outcomes, the Commission states commitment and leadership towards taking proactive steps to ensure that Butte County children and their families from diverse populations, including children with disabilities and other special needs, are an integral part of the planning and implementation of Proposition 10.

In accordance with Prop 10 State Commission, diversity has been defined to be inclusive of children prenatally through five years of age, regardless of immigration status, who:

1. Are from different ethnic, linguistic, cultural, socio-economic, religious, geographical and/or other historically or currently under-served communities; or
2. Have disabilities and other special needs.

It is in concert with the State Commission’s overriding emphasis that Butte County fulfill its mission to adopt policies and practices that equitably provide Butte County’s children (prenatal through 5) from diverse backgrounds and abilities with accessible, family-friendly, culturally competent, quality early childhood services and programs designed to help them reach their full potential and prepare them for positive educational and life experience. The principles herein adopted will serve as guidelines to ensure that the programs and services established and supported by Prop 10 funds are both culturally and linguistically competent and inclusive in service children with disabilities and other special needs.

Policy:

The Commission adopts the following four principles respecting equity and diversity to benefit the children and families served through local programs funded by Prop 10.

1. Inclusive Governance and Participation – We the Commissioners of Butte County recognize that children develop within the context of their families and communities, and as such, it is essential that Prop 10 programs secure and obtain meaningful participation and input of the families and other caregivers of children from diverse backgrounds and with diverse abilities throughout all program development and implementation phases.

When referring to families, the Commission utilizes the California Standards for Family Strengthening and Support definition: “At least one adult and one child who are related biologically, emotionally, or legally. Families may consist of one

parent, two parents, grandparents, foster parents, legal guardians, or from a need for mutual support. Ultimately, however, “family” is self-defined.”

2. Access to Services – To assure that children from diverse backgrounds and with diverse abilities have access to high quality and culturally competent early care and education/development opportunities as a critical means for achieving quality, Prop 10 funded programs should set measurable goals and objectives for increasing access and achieving equity.
3. Legislative and Regulatory Mandates – Agencies must adhere to all legislative, regulatory and accreditation mandates pertinent to the provision of services to children from diverse backgrounds and with diverse abilities by embracing the spirit of the law, informing parents of their rights and responsibilities as well as those of their children, and be held accountable for their compliance with key laws and other related mandates.
 - A. Title VI of the Civil Rights Act of 1964: requires linguistic access via qualified interpreters and translated materials at no cost to the individual;
 - B. Americans with Disabilities Act 1990 (ADA): prohibits discrimination on the basis of disability and promotes equal access, building modifications, hiring practices for persons with disabilities;
 - C. Language Access Laws i.e., Dymally-Alatorre Bilingual Services Act (CA); imposes direct obligations state/local governmental agencies to provide appropriate translation services for languages spoken by 5% or more of population served;
 - D. Individuals with Disabilities Education ACT (IDEA) establishes special education and coordinated, family-centered service delivery systems for children with disabilities from birth through age 5 through several programs e.g., California’s Early Start Program, California Department of Education’s Preschool Special Education Program; and
 - E. Executive Order 13166: issued on August 11, 2000 to promote meaningful access to Limited English Proficient (LEP) individuals to federally assisted and federally conducted programs and activities.
4. Results-based Accountability – All Prop 10 programs funded through the Butte County Children and Families Commission will have well defined and meaningful outcomes that benefit children from diverse backgrounds and diverse abilities. Staff will conduct assessments that include assets, challenges, and gaps in communities and systems by regular assessment of its inclusive governance

	process and provide updates on the extent of the family involvement and engagement throughout all phases of program development.

5. Fund Balance Policy

Purpose/ Background:

The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish a target fund balance level for the Commission.

The Commission is committed to maintaining a prudent level of financial resources to protect against the need to make service level reductions due to unplanned events such as revenue shortfalls or unpredicted expenditures.

At the same time, since the purpose of Prop 10 funds are to support programs and systems that benefit children and families, Commissions are cautioned against accumulating large Fund Balances without a clear investment strategy.

Policy:

The Commission will function within its annual allocation and maintain a Fund Balance level that meets target requirements as described below. Adjustments to annual budgets will systematically address increases or decreases in revenue, and adjustments to long term fiscal plans will strategically address the sustainability of Commission operations and direct services.

The Fund Balance Target shall be 2.5 years of the previous year's annual Prop 10 revenues, to be split into the following categories:

- Cash flow (15%): funds to cover payments should Prop 10 or other funds be delayed.
- Leveraging (25%): funding to ensure that federal/state funds can be maximally leveraged.
- Opportunities (35%): opportunities that are too good to pass up, or address needs that arise from a local or statewide emergency.
- Funding Reserve (25%): in the event that Prop 10 funds become permanently unavailable, funds to sustain some programs and staff while staff secures additional funds and/or closes down operations.

Funds exceeding the 2.5 year Fund Balance Target shall be referred to as Unassigned. During its annual budget approval process, the Commission may allocate Unassigned funds to programs and initiatives. The remaining Unassigned funds shall be available to be requested for community investment in accordance with the following principles:

- Prioritize the highest need children in Butte County
- Address the impact of local disasters on vulnerable families with young children

	<ul style="list-style-type: none"> • Build and support long-term sustainable impact • Positively move an indicator identified in the Strategic Plan • Elevate the Commission as a systems partner
Procedure:	<p>Based on guidance from the Commission at its February meeting, staff shall develop budget recommendations for the incoming fiscal year, and assign budget amounts based on Commission priorities, current and projected Prop 10 distributions, and the current financial condition of the Commission. The dollar amount for the Fund Balance Target and the Unassigned funds for the incoming fiscal year shall be identified and approved by the Commission at its April meeting.</p> <p>Budget revisions that would require a reduction in the Fund Balance Target during a given year must be approved by the Commission.</p>
Effective Date:	February 25, 2022

6. Fund Balance Reporting

Purpose/ Background:	<p>The Board of Supervisors authorized policies and procedures for First 5 Butte County Children and Families Commission pursuant to Section 130151 of the California Health and Safety Code. The purpose of this policy is to establish fund balance reporting procedures for the Commission.</p> <p>The Governmental Accounting Standards Board (GASB) is the independent organization that establishes standards of accounting and financial reporting for U.S. state and local governments. Established in 1984 by agreement of the Financial Accounting Foundation (FAF) and 10 national associations of state and local government officials, the GASB is recognized by governments, the accounting industry, and the capital markets as the official source of generally accepted accounting principles (GAAP) for state and local governments.</p> <p>GASB Statement no. 54, Fund Balance Reporting and Governmental Fund Type Definitions, is an accounting and financial reporting provision that is intended to improve the usefulness of the amounts reported as fund balance in annual audited financial statements by providing more structured classification. The statement also clarifies the definition of existing governmental fund types.</p>
Policy:	<p>The Commission’s fund balance shall be reported in the annual audited financial statements using the following five categories, which are consistent with Statement 54 of the Government Accounting Standards Board (GASB):</p> <ol style="list-style-type: none">1. Nonspendable2. Restricted3. Committed4. Assigned5. Unassigned
Procedure:	<p>The determination of how the fund balance is reported under these categories shall be consistent with the guidelines provided in the First 5 Financial Management Guide. At year end, the fund balance shall be reported out in accordance with the following five categories.</p> <p><u>Nonspendable Fund Balance</u></p> <p>This category includes elements of the fund balance that cannot be spent because of their form, or because they must be maintained intact. Examples would include:</p> <ul style="list-style-type: none">• Assets that will never convert to cash, such as prepaid items and inventories of supplies• Assets that will not convert to cash soon enough to affect the current period, such as non-financial assets held for resale; or

- Resources that must be held intact pursuant to legal or contractual requirements, such as funds committed to leveraging State or Federal funds.

Restricted Fund Balance

This category includes resources that are subject to constraints that are externally enforceable legal restrictions. Examples would include:

- Funding from the State Commission or foundations that are legally restricted to specific uses. For example, funds advanced by First 5 CA under specific agreements for services, or matching funds for specific initiatives would be reported as restricted funds.
- Amounts collected from non-spendable items, such as the long term portion of loan outstanding, if those amounts are also subject to legal constraints.

NOTE: Tobacco tax revenues are not automatically categorized as restricted fund balance because the purposes for which tobacco tax allocations may legally be used are no narrower than the purpose for which the commissions were created in Proposition 10 enabling legislation.

Committed Fund Balance

Two criteria determine the committed fund balance:

- The use of funds is constrained by limits imposed by action of the Commission – the governmental unit’s highest level of decision making.
- Removal or modification of the use of funds can be accomplished only by action of the Commission. (Both the establishment of the commitment and/or modification or removal must occur prior to the end of the fiscal year being reported upon.)

Resources in this category would include:

- Resources committed for a future initiative when Commission action is required to remove or modify the commitment.
- Resources that have been committed by the Commission for specific agreements that have not yet been executed when Commission action is also required to remove this commitment.
- Resources committed as the local match for a State Commission initiative.
- Funding that has been designated for previously executed legally enforceable contracts but not yet spent, including multi-year contracts, when cancellation of such contracts would require Commission approval.

Assigned Fund Balance

The assigned portion of the fund balance reflects the Commission’s intended use of resources, which can be established either by the Commission or the Director. The “assigned” component is similar to the “committed” component, with two essential differences, shown in the following table:

Key Differences between Committed and Assigned Fund Balance

	Committed	Assigned
A decision to use funds for a specific purpose requires action of the Commission	Yes	No
Formal action of Commission is necessary to impose, remove or modify a constraint and formal action has taken place before end of the reporting period	Yes	No

The purpose of the assignment must be narrower than the fund itself. For this reason, tobacco tax revenues would not automatically be placed in the “committed” component. Resources to be included in this category include:

- Appropriation of all or a portion of existing fund balance sufficient to eliminate a projected deficit in the subsequent year’s budget.
- Funding that has been designated for previously executed legally enforceable contracts but not yet spent, including multi-year contracts, when cancellation of such contracts would not require Commission approval.
- Resources assigned to a specific program or project or organization for which the commission has approved a plan or budget.
- Resources approved by a commission for a long range financial plan where formal approval is not required to modify amounts.

For First 5 Butte County, the Commission can assign amounts under this category, and may also authorize the Director to assign amounts under this category when that decision is consistent with the approved long term financial plan. This authorization is consistent with the Commission’s other existing policies.

Unassigned fund balance

Resources in the fund balance that cannot be classified into any of the other categories are included here.

This is important in order to avoid damaging the reputations of persons suspected but subsequently found innocent of wrongful conduct and to protect the Commission from potential civil liability.

- Free and unrestricted access to all Commission records and premises, whether owned or rented; and
